SUMMARY

Front-end developer with a passion for user experience and interaction design and strength in creative and strategic thinking. Learning and growing as a developer is important to me and I am currently working on front-end projects for. I am excellent at working in teams and enjoy collaboration with peers; Also, I am confident in the development of front-end for e-commerce sites and will do my best to deliver modern interfaces.

EXPERIENCE

Social networking service App (Volunteer) 2021 Sep - now

Making a social networking service App created by Angular. Mainly in charge of front-end part using Ionic framework.

-Angular, TypeScript, RxJS, Ionic

Data scraping (Volunteer) 2020 sep - 2022 Mar

Scraping the navigation website to get the information of geographic information, timetable, and so on.

-Python, Selenium, Pandas

PROJECTS

Dogs pictures App

SNS like React app in which users can post and find dog pictures. In the finding page, the state is managed by React tool kit and the picture data are fetched from Dog API. Post data are managed by Supabase. Managing API by using redux thunk with RTK was quite challenging.

-React, TypeScript, React Router, Redux Tool Kit, Ant Design, Supabase

Bookmark App

My first React App which organizes web articles you like. This App uses Hasura to store the data and fully implemented CRUD functions. I learned how the GraphQL works through making this app.

-React, JavaScript, React Router, Ant Design, Hasura, GraphQL
